

“EVERYTHING I KNOW, I LEARNED FROM DOGS.” — NORA ROBERTS | CASH FROM CALIFORNIA.

— *Award-Winning* —
**BIOLOGICALLY
APPROPRIATE**
FOODS AND TREATS
For **DOGS**

OUR MISSION. *Clear AND Strong*

TRUSTED BY PET LOVERS EVERYWHERE.

Since our humble beginnings in 1985 in the small town of Barrhead, Alberta, we've been making **BIOLOGICALLY APPROPRIATE** dog and cat foods for Pet Lovers who expect the highest quality. Made with an unmatched variety of ranch-raised meats, cage-free poultry, wild-caught fish and sun-ripened fruits, vegetables and botanicals, we use Fresh Regional Ingredients from close to home, grown and raised by people we know and trust.

Frank Burdzy, President & CEO
CHAMPION PETFOODS LP

WE MAKE BIOLOGICALLY APPROPRIATE DOG FOODS FROM FRESH REGIONAL INGREDIENTS.

BIOLOGICALLY APPROPRIATE

Our foods mirror the richness, freshness and variety of WholePrey meats that dogs are evolved to eat.

FRESH REGIONAL INGREDIENTS

We focus on local ingredients that are raised by people we know and trust, and delivered FRESH or RAW each day.

NEVER OUTSOURCED

We don't make foods for other companies and we don't allow our foods to be made by anyone else.

AWARD-WINNING DOG FOODS

Our relentless commitment to making — and never outsourcing — Biologically Appropriate dog foods from fresh regional ingredients has earned us an international reputation for leadership and innovation, and more awards than any other pet food maker.

AWARD-WINNING BIOLOGICALLY APPROPRIATE DOG FOOD

LEADERSHIP AWARDS "FOOD INNOVATION"

For the first time in its history, Food in Canada magazine honoured a pet food maker with the 2014 Food Innovation award.

TOP 10 BEST DOG FOOD BRANDS

Voted top dog food based on quality of ingredients, ingredient sources, formulas, reputation and customer satisfaction.

PET FOOD INNOVATION AWARD

Recognizing our pioneering approach to producing innovative Biologically Appropriate foods.

ALBERTA AWARD OF DISTINCTION

A prestigious award recognizing our outstanding business achievements, leadership and community contributions.

EXCELLENCE IN CANINE PET FOOD

Named for Excellence in Pet Food by this nationally accredited certification organization approved by U.S. and U.K. governments.

EXPORT AND CONSUMER PRODUCT AWARDS

Two prestigious awards, including Exporter of the Year and the Consumer Products award recognizing our innovative approach to pet foods.

NEVER OUTSOURCED.

OUR RECIPES. OUR KITCHENS. OUR FOODS.

MOST DOG FOOD BRANDS ARE OWNED BY MARKETING COMPANIES THAT OUTSOURCE THEIR FOOD PRODUCTION TO THIRD-PARTY FACTORIES, WHICH MAKE MANY DIFFERENT FOODS FOR MANY DIFFERENT BRANDS.

WE DON'T MAKE FOODS FOR OTHER COMPANIES AND WE DON'T ALLOW OUR FOODS TO BE MADE BY ANYONE ELSE.

WE ARE PROUD OF OUR REPUTATION AND PASSIONATE ABOUT OUR FOODS.

That's why we prepare ORIJEN in our own kitchens where we control every detail, from recipe development and food safety to ingredient sourcing and food production.

When you choose ORIJEN, you can be confident your dog's food has been prepared with care, attention and trust.

Trusted EVERYWHERE

At Champion Petfoods, we are dedicated to the highest standards of authenticity, nutritional integrity and food safety.

ORIJEN meets the strictest standards anywhere, including the Government of Canada, the European Union and the United States Department of Agriculture.

LUZ, FREEZE-DRY PACKAGING TECHNICIAN, COMMITTED TO ENSURING QUALITY PRODUCTION.

NORTHSTAR OUR AWARD-WINNING KITCHENS

LOCATED AT THE NORTHERN CELESTIAL POLE, THE NORTH STAR IS KNOWN THROUGHOUT HUMAN HISTORY FOR HOLDING STILL IN THE SKY WITH THE ENTIRE NORTHERN SKY REVOLVING AROUND IT.

The North Star has come to symbolize our Canadian kitchens, representing a beacon of excellence in the global pet food industry. Located in Northern Alberta, Canada, and purpose-built to advance our Biologically Appropriate mission, NorthStar is the most advanced pet food kitchen in Canada.

Equipped with unmatched fresh meat capabilities, NorthStar features exceptional fresh regional ingredient capabilities with capacity for holding over 50 fresh regional meat ingredients, 10 whole vegetables and fruits, and six varieties of botanicals.

Resolute in fulfilling our mission, our NorthStar kitchens prepare ORIJEN and ACANA foods only — no other brands, no private label.

Our Canadian kitchens are equipped with freeze-dryers and plate freezers to flash-freeze seasonal foods, from fresh wild-caught fish to our locally grown botanicals, preserving their goodness for future use.

SAFE FOODS

Built to reflect our commitment to Pet Lovers, our NorthStar kitchens meet every international food safety standard, including the European Union and United States Food and Drug Administration (FDA). NorthStar Kitchens has the internationally recognized Safe Feed/Safe Food (SFSF) certification. We practice standards expected of the human food processing industry.

Innovation
**OUR BIOLOGICALLY
APPROPRIATE RESEARCH
AND INNOVATION CENTRE**

JENNIFER AND ARSHDEEP, COMMITTED TO INNOVATING OUR AWARD-WINNING FOODS. STATE-OF-THE-ART BAFRINO RESEARCH AND INNOVATION CENTRE, MORINVILLE, ALBERTA.

OUR COMMITMENT TO INNOVATION HAS NEVER BEEN STRONGER.

Adjacent to our NorthStar Kitchens, our Biologically Appropriate Research and Innovation Centre is a state-of-the-art innovation hub focused on advancing our award-winning foods in four areas:

1. BIOLOGICALLY APPROPRIATE

Aligned with our drive for innovation, we are dedicated to the continual advancement of our Biologically Appropriate foods.

2. FRESH MEAT TECHNOLOGIES

Low temperature meat separation technologies enable us to include far more fresh meats in our foods than conventional kitchens.

3. FOOD PERFORMANCE

Starting with fresh local liver and tripe, our pilot freeze-drying and hydrolyzing technologies enhance ORIJEN's all-natural flavours.

4. VALIDATION AND NUTRIENT TESTING

Our sophisticated on-site laboratory sets the standard in verifying safety and nutritional properties of our foods.

OUR BIOLOGICALLY APPROPRIATE *philosophy*

BIOLOGICALLY APPROPRIATE FOODS MIRROR THE FRESHNESS AND VARIETY OF MEATS THAT DOGS ARE BUILT TO EAT.

The gray wolf is the ancestor and closest relative of all domestic dogs, and while years of breeding have produced hundreds of 'different looking wolves', the internal workings – and nutritional requirements – of wolves and modern dogs have not changed.

That's why ORIJEN features 85% meat in richly nourishing WholePrey ratios, and excludes GMOs, plant proteins and high-glycemic carbohydrates that are common in today's dog foods, but don't belong in your dog's natural diet.

MODERN DOGS ARE BUILT LIKE THEIR ANCESTORS. WE BELIEVE THEY SHOULD EAT LIKE THEM TOO.

"ONCE YOU HAVE HAD A WONDERFUL DOG, A LIFE WITHOUT ONE, IS A LIFE DIMINISHED." — DEAN KOONTZ | REIKO FROM NOVA SCOTIA

BIOLOGICALLY
APPROPRIATE

PRINCIPLES

THESE FIVE PRINCIPLES REFLECT OUR
BIOLOGICALLY APPROPRIATE COMMITMENT

1

RICH IN MEAT AND PROTEIN

To meet your dog's biological need for a meat and protein-rich diet, ORIJEN is loaded with 85% meat (3 or 4 times as much as conventional dog foods) and is free of inappropriate plant concentrates like potato or pea protein.

2

FRESH MEAT INCLUSIONS

Unrivaled by any other dry dog food, two-thirds of the meats in ORIJEN are FRESH or RAW, providing essential nutrients in their most nourishing form and the goodness all dogs instinctively crave.

3

AN ABUNDANT VARIETY OF MEATS

In nature, dogs benefit from an assortment of foods, so ORIJEN features an unmatched diversity of fresh free-run poultry, whole nest-laid eggs, free-range meats and whole wild-caught fish.

4

WHOLEPREY MEAT RATIOS

Nature matched the nutrients in whole animals to perfectly meet your dog's needs. ORIJEN's WholePrey ratios of fresh meat, organs and cartilage mimic Mother Nature, virtually eliminating the need for synthetic ingredients.

5

CARBOHYDRATE AND GLYCEMIC-LIMITED

Your dog's natural diet contains few, if any, carbohydrates. That's why ORIJEN limits carbohydrates and replaces fast sugars like potato and tapioca with whole, low-glycemic fruits and vegetables such as fresh pumpkin and squash.

BIOLOGICALLY APPROPRIATE

RULE NO.

Rich in MEAT AND PROTEIN

BERN AND KIRSTIN OF SPRING CREEK RANCH IN VEGREVILLE, ALBERTA. TRUSTED SUPPLIERS OF FRESH ANGUS BEEF.

85% MEAT

up to 42% PROTEIN

DOMESTIC DOGS ARE NOT ONLY CAPABLE OF EATING THE FOODS OF THEIR ANCESTORS, THEY REQUIRE IT FOR PEAK HEALTH.

All dogs have sharp teeth and bodies built to metabolize protein and fat from meat. Loaded with 85% nourishing meat ingredients, all from animals deemed fit for human consumption prior to inclusion in our foods, ORIJEN nourishes dogs according to their biological needs.

2/3 OF MEATS ARE FRESH OR RAW

ORIJEN'S AUTHENTICALLY FRESH AND RAW MEATS ARE BRIMMING WITH PROTEINS AND FATS IN THEIR MOST NATURAL AND NOURISHING FORM.

Fresh | The only way we preserve our fresh meats is through refrigeration — no preservatives.

Raw | We flash-freeze our fresh ingredients at peak season to preserve goodness — no preservatives.

1/3 OF MEATS ARE GENTLY DEHYDRATED

CONVENTIONAL MEAT MEALS ARE RENDERED AT HIGH TEMPERATURES FROM WASTE BY-PRODUCTS UNFIT FOR HUMAN CONSUMPTION.

LOW TEMP 90°C Our dried meats are prepared at 90°C, from fresh meats, concentrating their goodness into a rich source of protein that cannot be supplied by fresh meats alone.

DRIED POULTRY | Prepared from fresh chicken, turkey and duck, with additional liver and kidney, exceeding the industry standard of bones and scraps.

DRIED MEATS | Prepared from fresh lamb, beef, goat, pork and mutton, with additional liver, kidney and tripe, surpassing the industry standard of bones and offal.

DRIED FISH | Prepared from fresh, whole, wild-caught fish, surpassing the industry standard of bones and trimmings.

10 FRESH OR RAW TOP 10 FRESH OR RAW

FRESH MEATS ARE THE FOUNDATION OF OUR AWARD-WINNING ORIJEN FOODS.

A full two-thirds of the meat, fish, poultry and eggs that go into ORIJEN are FRESH or RAW, so they're brimming with protein and fat in their most nourishing form.

To preserve the natural goodness and health benefits of our fresh meats, our NorthStar kitchens feature state-of-the-art low temperature cooking techniques to prepare ORIJEN foods.

PLANT PROTEIN CONCENTRATES ARE INCREASINGLY COMMON IN DOG FOODS.

Many dog foods feature pea and potato protein concentrates that raise protein levels, so they appear more wholesome than they really are.

The problem is that plant concentrates are low in the essential amino acids dogs need, so these foods rely on heavy synthetic amino acid supplementation.

Prepared with 85% meat, ORIJEN naturally contains every amino acid required for your dog's peak health, so no synthetics are needed.

85% MEAT INCLUSIONS*

*Except ORIJEN freeze-dried foods (90%) and treats (100%)

3

AN ABUNDANT Variety of MEATS

KATELYN AND ROGER OF CANADIAN RANGELAND BISON IN LACOMBE, ALBERTA. TRUSTED SUPPLIERS OF PLAINS BISON.

AN UNMATCHED VARIETY OF FRESH REGIONAL MEATS

CONSIDER THE VARIATION IN A DOG'S NATURAL DIET — WHOLE EGGS TODAY, A GOOSE TOMORROW, WHOLE FISH THE NEXT. THAT'S WHY A RICH VARIETY OF FRESH REGIONAL MEATS IS A KEY PRINCIPLE IN OUR BIOLOGICALLY APPROPRIATE PHILOSOPHY.

This essential variety of fresh whole meats delivers a natural balance of essential proteins and fats, but is often lost in conventional dog foods, which typically contain a single highly processed animal ingredient and rarely feature nutrient-rich organs and cartilage.

Biologically Appropriate ORIJEN is different. Loaded with up to 10 different fresh ranch-raised meats, free-run poultry, whole nest-laid eggs and whole wild-caught fish, ORIJEN provides dogs with the richly nourishing diversity of protein and fat they need for peak health.

INGREDIENTS WE LOVE. PEOPLE WE TRUST.

YOU KNOW WHERE YOUR FOOD COMES FROM. WE THINK YOU OUGHT TO KNOW WHERE YOUR DOG'S FOOD COMES FROM TOO.

That's why we make ORIJEN in our own award-winning kitchens with fresh ingredients raised by farmers and fishers we know and trust.

Whole Prey MEATS

"WHY DOES WATCHING A DOG BE A DOG FILL ONE WITH HAPPINESS?"
— JONATHAN SAFRAN FOER | KUNA FROM ALBERTA.

**SUPERFOOD
FOR DOGS**

OUR WHOLEPREY FOODS MIRROR THE DIET THAT MOTHER NATURE EVOLVED ALL DOGS TO EAT — A RICHLY NOURISHING BALANCE OF MEAT, ORGANS AND CARTILAGE TO PERFECTLY MEET YOUR DOG'S NUTRITIONAL NEEDS, WITHOUT LONG LISTS OF SYNTHETIC ADDITIVES.

YOUR DOG'S ANATOMY REMAINS UNCHANGED.

NATURE MATCHED THE NUTRIENTS IN WHOLE ANIMALS TO PERFECTLY MEET THE NEEDS OF WOLVES AND DOGS ALIKE.

WholePrey represents ORIJEN's commitment to nourishing dogs according to their biological needs by incorporating meat, organs and cartilage in ratios that mirror their natural diet.

Meat | Essential source of protein and fat as well as vitamins A, B, D and K, and copper, chromium, folic acid, iron, magnesium, potassium, selenium and zinc.

Organs | Densely packed with virtually every nutrient your dog needs to thrive, including vitamins, minerals, healthy fats and amino acids.

Edible Bone | A rich source of minerals like calcium, phosphorus, magnesium and potassium in natural form your dog's body can easily absorb.

LIMITED ADDITIVES

In nature, dogs and wolves meet their nutritional needs naturally, by consuming whole prey animals.

ORIJEN foods mirror dogs' evolutionary diet with WholePrey ratios that deliver nutrients naturally, limiting supplementation* to zinc and copper. Compared to conventional dog foods which contain over 20 supplements.

*For ORIJEN dry dog foods.

YOUR DOG'S NATURAL DIET IS LOW IN CARBOHYDRATES.

The relationship between protein and carbohydrates is simple: when one goes up, the other goes down. That's why ORIJEN foods are packed with a minimum of 38% protein, leaving less room for carbohydrates.

While protein is essential to maintaining good health, dogs have no biological need for carbohydrates and excessive consumption can lead to obesity and diabetes.

NOT ALL CARBOHYDRATES ARE CREATED EQUAL.

The GLYCEMIC INDEX (GI) is a system of ranking carbohydrates based on their effect on blood sugar.

HIGH-GLYCEMIC carbohydrates such as tapioca and potato digest quickly, causing spikes in blood glucose levels and an increase in fat storage.

LOW-GLYCEMIC carbohydrates like lentils and chickpeas enter the blood slowly, reducing the potential for fat storage.

NO HIGH-GLYCEMIC CARBOHYDRATES.

ORIJEN foods feature healthy fruits and vegetables such as whole pumpkin and butternut squash, sources of low-glycemic carbohydrates that help promote stable blood sugar levels.

"DOGS AND PHILOSOPHERS DO THE GREATEST GOOD AND GET THE FEWEST REWARDS." — DIOGENES | TAKODA FROM BRITISH COLUMBIA

CARBOHYDRATE — Limited —

**CARBOHYDRATES
LIMITED TO 20%**

CARBOHYDRATES ARE RECOGNIZED AS A LEADING CAUSE OF OBESITY AND DIABETES. STILL, MOST CONVENTIONAL DOG FOODS FEATURE 40 - 50% CARBOHYDRATES, OFTEN FROM FAST SUGARS SUCH AS POTATO AND TAPIOCA, WHICH CAUSE SPIKES IN BLOOD SUGAR AND AN INCREASE IN FAT STORAGE.

AWARD-WINNING
Dog Foods

BIOLOGICALLY APPROPRIATE DOG FOODS

OUR AWARD-WINNING BIOLOGICALLY APPROPRIATE PHILOSOPHY REPRESENTS A NEW CLASS OF DOG FOODS, DESIGNED TO NOURISH DOGS ACCORDING TO THEIR BIOLOGICAL NEED FOR A FRESH MEAT AND PROTEIN-RICH DIET.

ORIJEN FREEZE-DRIED

THE ULTIMATE BIOLOGICALLY APPROPRIATE DOG FOODS AND TREATS

ORIJEN FREEZE-DRIED FOODS AND TREATS OFFER ALL THE FLAVOUR AND NUTRITIONAL BENEFITS OF RAW FOODS, JUST AS NATURE INTENDED.

Prepared without cooking to fully retain the goodness of our fresh regional ingredients, our FRESH or RAW meats are flash-frozen in nitrogen tunnels to lock in their natural goodness.

Then, using state-of-the-art freeze-dryers, our ingredients undergo an 18-hour freeze-drying process, which removes water and leaves behind all the richly nourishing nutrients and delicious taste of our authentically fresh regional ingredients.
